Betreff: EU's Ground-handling-Directive

Dear Mr Wilfing

Thank you for your letter of 27.3.12, to Mr Farage (UKIP) enclosing a copy of the Motion of the Lower Austrian Diet, "regarding the rejection of any further market-opening, for ground-handling-services, at airports, owing to the threat of wage- and social dumping".

Unfortunately, the EU's so-called "parliament" is no more than a tool, and propaganda-organ, of the EU-Commission and is virtually incapable of rejecting a Commission-proposal.

UKIP will, of course, vote against the "Ground-handling Directive" - if only because the EU is almost totally un-democratic and all its legislation is therefore illegitimate - but, since the population of the "parliament" is stacked in favour of EU-fanatics and careerists, our vote is unlikely to make much difference.

Yours sincerely

Andrew S. Reed
